Image and Text in Conceptual Art Eve Kalyva 2017-06-29 This book examines the use of image and text juxtapositions in conceptual art as a strategy for challenging several ideological and institutional demands placed on art. While conceptual art is generally identified by its use of language, this book makes clear exactly how language was used. In particular, it asks: How has the presence of language in a visual art context changed the ways art is talked about, theorised and produced? Image and Text in Conceptual Art demonstrates how artworks communicate in context and evaluates their critical potential. It discusses international case studies and draws resources from art history and theory, philosophy, discourse analysis, literary criticism and social semiotics. Engaging the critical and social dimensions of art, it proposes three methods of analysis that consider the work's performative gesture, its logico-semantic relations and the rhetorical operations in the discursive creation of meaning. This book offers a comprehensive method of analysis that can be applied beyond conceptual art.

Listen, Here, Now! Andrea Giunta 2004 Listen, Here, Now! is the first book to explore the intense, internationally significant developments in Argentine art of the 1960s through English translations of the original documents of the time. An anthology of invaluable primary source material on the development of performance art, media art, and political art in Argentina, it includes key essays by two of the most brilliant Argentine art critics of the period, Jorge Romero Brest and Oscar Masotta, and many texts by artists: manifestos, letters, lectures, and project notes. Well-known Latin American scholars contribute chapter introductions, setting the ideas and arguments of these documents in context for foreign audiences. A comprehensive biographical and bibliographical appendix completes the book. Listen, Here, Now! was edited by Ines Katzenstein and, in part, by Andrea Giunta. It includes essays by Marcelo E. Pacheco, Ana Longoni, Mariano Mestman, and Oscar Terán. The book is the second in a series of anthologies published by The Museum of Modern Art, collecting primary documents of art and art criticism from around the world.

Specular City Laura Podalsky 2004 "A sweeping account of one of the cultural centers of Latin America, Specular City tells the history of Buenos Aires during the interregnum after Juan Perón's fall from power and before his restoration. During those two decades, the city experienced a rapid metamorphosis at the behest of its middle class citizens, who were eager to cast off the working-class imprint left by the Peronists. Laura Podalsky discusses the ways in which the proliferation of skyscrapers, the emergence of car culture, and the diffusion of an emerging revolution in the arts helped transform Buenos Aires, and, in so doing, redefine Argentine collective history. More than a cultural and material history of this city, this book also presents Buenos Aires as a crucible for urban life. Examining its structures through films, literatures, new magazines, advertising and architecture, Specular City reveals the prominent place of Buenos Aires in the massive changes that Latin America underwent for a new, modern definition of itself." -- from book cover.

Public Pages Marcy Schwartz 2018-05-02 Public reading programs are flourishing in many Latin American cities in the new millennium. They defy the conception of reading as solitary and private by literally taking literature to the streets to create new communities of readers. From institutional and official to informal and spontaneous, the reading programs all use public space, distribute creative writing to a mass public, foster collective rather than individual reading, and provide access to literature in unconventional arenas. The first international study of contemporary print culture in the Americas, Public Pages reveals how recent cultural policy and collective literary reading intervene in public space to promote social integration in cities in Colombia, Argentina, Brazil, Mexico, and Chile. Marcy Schwartz looks at broad institutional programs such as UNESCO World Book Capital campaigns and the distribution of free books on public transportation, as well as local initiatives that produce handmade books out of recycled materials (known as cartoneras) and display banned books at former military detention centers. She maps the connection between literary reading and the development of cultural citizenship in Latin America, with municipalities, cultural centers, and groups of ordinary citizens harnessing reading as an activity both social and literary. Along with other strategies for reclaiming democracy after decades of authoritarian regimes and political violence, as well as responding to neoliberal economic policies, these acts of reading collectively in public settings invite civic participation and affirm local belonging.

Versions and Inversions Museum of Fine Arts, Houston 2006 "In 2004, MFAH presented Inverted Utopias, a critically acclaimed exhibition focusing on the development of avant-garde art in Latin America from 1920 to 1970. At the time of the exhibition, a major symposium was held at the museum. Edited by Héctor Olea and Mari Carmen Ramírez, this book brings together texts and commentary by leading art historians and critics who participated in the event, including Gabriel Peluffo Linari, Andrea Giunta, Luis Camnitzer, and Lucy R. Lippard, among many others. A wide range of topics is covered, including the avant-garde in America and Europe, Argentine art in the 1960s, Latin American Conceptualism, and Brazilian art trends of the 1950s."--Publisher description.

Latin American Textualities Heather J. Allen 2018-12-11 Textuality is the condition in which a text is created, edited, archived, published, disseminated, and consumed. "Texts," therefore, encompass a broad variety of artifacts: traditional printed matter such as grammar books and newspaper articles; phonographs; graphic novels; ephemera such as fashion illustrations, catalogs, and postcards; and even virtual databases and cataloging systems. Latin American Textualities is a wide-ranging, interdisciplinary look at textual history, textual artifacts, and digital textualities across Latin America from the colonial era to the present. Editors Heather J. Allen and Andrew R. Reynolds gather a wide range of scholars to investigate the region's textual scholarship. Contributors offer engaging examples of not just artifacts but also the contexts in which the texts are used. Topics include Guamán Poma's library, the effect of sound recordings on writing in Argentina, Sudamericana Publishing House's contribution to the Latin American literary boom, and Argentine science fiction. Latin American Textualities provides new paths to reading Latin American history, culture, and literatures. Contributors: Heather J. Mexican Muralism Alejandro Anreus 2012-09-08 In this comprehensive collection of essays, three generations of international scholars examine Mexican muralism in its broad artistic and historical contexts, from its iconic figuresÑDiego Rivera, JosŽ Clemente Orozco, and David Alfaro SiquierosÑto their successors in Mexico, the United States, and across Latin America. These muralists conceived of their art as a political weapon in popular struggles over revolution and resistance, state modernization

and civic participation, artistic freedom and cultural imperialism. The contributors to this volume show how these artists' murals transcended borders to engage major issues raised by the many different forms of modernity that emerged throughout the Americas during the twentieth century.

Touched Bodies Mara Polgovsky Ezcurra 2019-06-21 Shortlisted for the 2020 Association for the Study of the Arts of the Present Book Prize? Winner of the 2019 Art Journal Prize from the College Art Association What is the role of pleasure and pain in the politics of art? In Touched Bodies, Mara Polgovsky Ezcurra approaches this question as she examines the flourishing of live and intermedial performance in Latin America during times of authoritarianism and its significance during transitions to democracy. Based on original documents and innovative readings, her book brings politics and ethics to the discussion of artistic developments during the "long 1980s". She describes the rise of performance art in the context of feminism, HIV-activism, and human right movements, taking a close look at the work of Diamela Eltit and Raúl Zurita from Chile, León Ferrari and Liliana Maresca from Argentina, and Marcos Kurtycz, the No Grupo art collective, and Proceso Pentágono from Mexico. The comparative study of the work of these artists attests to a performative turn in Latin American art during the 1980s that, like photography and film before, recast the artistic field as a whole, changing the ways in which we perceive art and understand its role in society.

Transcontinental Guy Brett 1990 Art produced in the so-called Third World, or by non-European or North American artists, is usually seen as either traditional and folkloric, or a poor imitation of modernism. In art history, the avant-garde has always been associated with the Western metropolis, forgetting that every country has had its own particular relationship with modernity. This book describes a contemporary flourishing of radical artistic experiment in Argentine, Brazil and Chile (or by artists originating from there). The focus and priorities have been different to those of Europe and North America; at the same time, the work intensifies many of the issues which face us all. The nine artists whose work is described and analysed here use a wide range of materials: from paint, silkscreen, and photography to potatoes, money, magnets, wire, bone, feathers. Each artist has a particular strategy; in fact the variety and sophistication of the devices they use makes this a dazzling anthology of a modern visual poetics. Each artist invents new and many-levelled metaphors which link the 'Latin American' with the 'global'. This lucidly written, beautifully illustrated book is published to accompany an exhibition of the same title held at the Ikon Gallery, Birmingham and Cornerhouse, Manchester in 1990.

Primitivism and Identity in Latin America Erik Camayd-Freixas 2021-11-23 Although primitivism has received renewed attention in recent years, studies linking it with Latin America have been rare. This volume examines primitivism and its implications for contemporary debates on Latin American culture, literature, and arts, showing how Latin American subjects employ a Western construct to "return the gaze" of the outside world and redefine themselves in relation to modernity. Examining such subjects as Julio Cortázar and Frida Kahlo and such topics as folk art and cinema, the volume brings together for the first time the views of scholars who are currently engaging the task of cultural studies from the standpoint of primitivism. These varied contributions include analyses of Latin American art in relation to social issues, popular culture, and official cultural policy; essays in cultural criticism touching on ethnic identity, racial politics, women's issues, and conflictive modernity; and analytical studies of primitivism's impact on narrative theory and practice, film, theater, and poetry. This collection contributes offers a new perspective on a variety of significant debates in Latin American cultural studies and shows that the term primitive does not apply to these cultures as much as to our understanding of them. Music, Politics, and Nationalism In Latin America: Chile During the Cold War Era Jedrek Mularski 2014-11-28 To date, scholars have paid little attention to the role that music played at political rallies and protests, the political activism of right-wing and left-wing musicians, and the emergence of musical performances as sites of verbal and physical confrontations between Allende supporters and the opposition. This book illuminates a largely unexplored facet of the Cold War era in Latin America by examining linkages among music, politics, and the development of extreme political violence. It traces the development of folk-based popular music against the backdrop of Chile's social and political history, explaining how music played a fundamental role in a national conflict that grew out of deep cultural divisions. Through a combination of textual and musical analysis, archival research, and oral histories, Jedrek Mularski demonstrates that Chilean rightists came to embrace a national identity rooted in Chile's central valley and its huaso ("cowboy") traditions, which groups of well-groomed, singing huasos expressed and propagated through música típica. In contrast, leftists came to embrace an identity that drew on musical traditions from Chile's outlying regions and other Latin American countries, which they expressed and propagated through nueva canción. Conflicts over these notions of Chilenidad ("Chileanness") both reflected and contributed to the political polarization of Chilean society, sparking violent confrontations at musical performances and political events during the late 1960s and early 1970s. Mularski offers a powerful example and multifaceted understanding of the fundamental role that music often plays in shaping the contours of political struggles and conflicts throughout the world. This is an important book for Latin American studies, history, musicology/ethnomusicology, and communication.

Resisting Categories: Latin American and/or Latino? Mari Carmen Ramirez 2012-04-24 DIV This first volume of the *Critical Documents of 20th-Century Latin American and Latino Art* series published by the International Center for the Arts of the Americas at the Museum of Fine Arts, Houston, presents 168 crucial texts written by influential artists, critics, curators, journalists, and intellectuals whose writings shed light on questions relating to what it means to be "Latin American" and/or "Latino." Reinforced within a critical framework, the documents address converging issues, including: the construct of "Latin-ness" itself; the persistent longing for a continental identity; notions of Pan-Latin Americanism; the emergence of collections and exhibitions devoted specifically to "Latin American" or "Latino" art; and multicultural critiques of Latin American and Latino essentialism. The selected documents, many of which have never before been published in English, span from the late fifteenth century to the present day. They encompass key protagonists of this comprehensive history as well as unfamiliar figures, revealing previously unknown facets of the questions and issues at play. The book series complements the thousands of seminal documents now available through the ICAA Documents of 20th-Century Latin American and Latino Art digital archive, <http://icaadocs.mfah.org>. Together they establish a much-needed intellectual foundation for the exhibition, collection, and interpretation of art produced in Latin America and among Latino populations in the United States. /div

Manifestos and Polemics in Latin American Modern Art Patrick Frank 2017-02-15 Bringing together sixty-five primary documents vital to understanding the history of art in Latin America since 1900, Patrick Frank shows how modern art developed in Latin America in this important new work complementing his previous book, *Twentieth-Century Art of Latin America, Revised and Expanded Edition*. Besides autobiographies, manifestos, interviews, and artists' statements, the editor has assembled material from videos, blogs, handwritten notes, flyers, lectures, and even an after-dinner speech. As the title suggests, many of the texts have a polemical or argumentative cast. In these documents, many of which appear in English for the first time, the artists themselves describe what they hope to accomplish and what they see as obstacles. Designed to show how modern art developed in Latin America, the documents begin with early modern expressions in the early twentieth century, then proceed through the avant-garde of the 1920s, the architectural boom of midcentury, and the Cold War years, and finally conclude with the postmodern artists in the new century.

Avant-Garde, Internationalism, and Politics Andrea Giunta 2007-06-25 The 1960s were heady years in Argentina. Visual artists, curators, and critics sought to fuse art and politics; to broaden the definition of art to encompass happenings and assemblages; and, above all, to achieve international recognition for new, cutting-edge Argentine art. A bestseller in Argentina, *Avant-Garde, Internationalism, and Politics* is an examination of the 1960s as a brief historical moment when artists, institutions, and critics joined to promote an international identity for Argentina's visual arts. The renowned Argentine art historian and critic Andrea Giunta analyzes projects specifically designed to internationalize Argentina's art and avant-garde during the 1960s: the importation of exhibitions of contemporary international art, the sending of Argentine artists abroad to study, the organization of prize competitions involving prestigious international art critics, and the export of exhibitions of Argentine art to Europe and the United States. She looks at the conditions that made these projects possible—not least the Alliance for Progress, a U.S. program of “exchange” and “cooperation” meant to prevent the spread of communism through Latin America in the wake of the Cuban Revolution—as well as the strategies formulated to promote them. She describes the influence of Romero Brest, prominent art critic, supporter of abstract art, and director of the Centro de Artes Visuales del Instituto Tocuato Di Tella (an experimental art center in Buenos Aires); various group programs such as *Nueva Figuración* and *Arte Destructivo*; and individual artists including Antonio Berni, Alberto Greco, León Ferrari, Marta Minujin, and Luis Felipe Noé. Giunta's rich narrative illuminates the contentious postwar relationships between art and politics, Latin America and the United States, and local identity and global recognition.
