

# The Handbook Of Chinese Linguistics Blackwell Handbooks In Linguistics

Eventually, you will categorically discover a additional experience and carrying out by spending more cash. nevertheless when? reach you recognize that you require to acquire those all needs gone having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to comprehend even more approximately the globe, experience, some places, subsequent to history, amusement, and a lot more?

It is your totally own period to be active reviewing habit. in the course of guides you could enjoy now is The Handbook Of Chinese Linguistics Blackwell Handbooks In Linguistics below.

The Oxford Handbook of Grammaticalization Heiko Narrog 2011-10-13 This book presents a critical assessment of research on grammaticalization, a central element in the process by which grammars are created. Leading scholars discuss its core theoretical and methodological bases, report on work in the field, and point to directions for new research. They represent every relevant theoretical perspective and approach.

The Science of Reading Margaret J. Snowling 2013-04-22 The Science of Reading: A Handbook brings together state-of-the-art reviews of reading research from leading names in the field, to create a highly authoritative, multidisciplinary overview of contemporary knowledge about reading and related skills. Provides comprehensive coverage of the subject, including theoretical approaches, reading processes, stage models of reading, cross-linguistic studies of reading, reading difficulties, the biology of reading, and reading instruction Divided into seven sections: Word Recognition Processes in Reading; Learning to Read and Spell; Reading Comprehension; Reading in Different Languages; Disorders of Reading and Spelling; Biological Bases of Reading; Teaching Reading Edited by well-respected senior figures in the field

The Handbook of Language and Globalization Nikolás Coupland 2012-09-17 The Handbook of Language and Globalization brings together important new studies of language and discourse in the global era, consolidating a vibrant new field of sociolinguistic research. The first volume to assemble leading scholarship in this rapidly developing field Features new contributions from 36 internationally-known scholars, bringing together key research in the field and establishing a benchmark for future research Comprehensive coverage is divided into four sections: global multilingualism, world languages and language systems; global discourse in key domains and genres; language, values and markets under globalization; and language, distance and identities Covers an impressive breadth of topics including tourism, language teaching, social networking, terrorism, and religion, among many others Winner of the British Association for Applied Linguistics book prize 2011

The Oxford Handbook of the History of Linguistics Keith Allan 2013-03-28 Leading scholars examine the history of linguistics from ancient origins to the present. They consider every aspect of the field from language origins to neuro-linguistics, explore the linguistic traditions in different parts of the world, examine how work in linguistics has influenced other fields, and look at how it has been practically applied

The Handbook of Bilingualism Tej K. Bhatia 2008-04-15 The Handbook of Bilingualism provides state-of-the-art treatments of the central issues that arise in consideration of the phenomena of bilingualism ranging from the representation of the two languages in the bilingual individual's brain to the various forms of bilingual education, including the status of bilingualism in each area of the world. Provides state-of-the-art coverage of a wide variety of topics, ranging from neuro- and psycho-linguistic research to studies of media and psychological counseling. Includes latest assessment of the global linguistic situation with particular emphasis on those geographical areas which are centers of global conflict and commerce. Explores new topics such as global media and mobile and electronic language learning. Includes contributions by internationally renowned researchers from different disciplines, genders, and ethnicities.

The Handbook of Asian Englishes Kingsley Bolton 2020-09-14 The first volume of its kind, focusing on the sociolinguistic and socio-political issues surrounding Asian Englishes The Handbook of Asian Englishes provides wide-ranging coverage of the historical and cultural context, contemporary dynamics, and linguistic features of English in use throughout the Asian region. This first-of-its-kind volume offers a wide-ranging exploration of the English language throughout nations in South Asia, Southeast Asia, and East Asia. Contributions by a team of internationally-recognized linguists and scholars of Asian Englishes and Asian languages survey existing works and review new and emerging areas of research in the field. Edited by internationally renowned scholars in the field and structured in four parts, this Handbook explores the status and functions of English in the educational institutions, legal systems, media, popular cultures, and religions of diverse Asian societies. In addition to examining nation-specific topics, this comprehensive volume presents articles exploring pan-Asian issues such as English in Asian schools and universities, English and language policies in the Asian region, and the statistics of English across Asia. Up-to-date research addresses the impact of English as an Asian lingua franca, globalization and Asian Englishes, the dynamics of multilingualism, and more. Examines linguistic history, contemporary linguistic issues, and English in the Outer and Expanding Circles of Asia Focuses on the rapidly-growing complexities of English throughout Asia Includes reviews of the new frontiers of research in Asian Englishes, including the impact of globalization and popular culture Presents an innovative survey of Asian Englishes in one comprehensive volume Serving as an important contribution to fields such as contact linguistics, World Englishes, sociolinguistics, and Asian language studies, The Handbook of Asian Englishes is an invaluable reference resource for undergraduate and graduate students, researchers, and instructors across these areas. Winner of the 2021 PROSE Humanities Category for Language & Linguistics

The Cambridge Handbook of Language Standardization Wendy Ayres-Bennett 2021-02-28 Language standardization is the process by which conventional forms of a language are established and maintained. Bringing together internationally renowned experts, this Handbook provides a comprehensive overview of standardization, norms and standard languages. Chapters are grouped into five thematic areas: models and theories of standardization, questions of authority and legitimacy, literacy and education, borders and boundaries, and standardization in Late Modernity. Each chapter addresses a specific issue in detail, illustrating it with linguistic case studies and taking into account the particular political, social and cultural context. Showcasing cutting-edge research, it offers fresh perspectives that go beyond traditional accounts of the standardization of national European languages, and affords new insights into minoritized, indigenous and stateless languages. Surveying a wide range of languages and approaches, this Handbook is an essential resource for all those interested in language standards and standard languages.

The Handbook of Language Emergence Brian MacWhinney 2018-05-01 This authoritative handbook explores the latest integrated theory for understanding human language, offering the most inclusive text yet published on the rapidly evolving emergentist paradigm. Brings together an international team of contributors, including the most prominent advocates of linguistic emergentism Focuses on the ways in which the learning, processing, and structure of language emerge from a competing set of cognitive, communicative, and biological constraints Examines forces on widely divergent timescales, from instantaneous neuro-linguistic processing to historical changes and language evolution Addresses key theoretical, empirical, and methodological issues, making this handbook the most rigorous examination of emergentist linguistic theory ever

The Oxford Handbook of Language and Society Ofelia García 2017 Contributors explore a range of sociolinguistic topics, including language variation, language ideologies, bi/multilingualism, language policy, linguistic landscapes, and multimodality. Each chapter provides a critical overview of the limitations of modernist positivist perspectives, replacing them with novel, up-to-date ways of theorizing and researching. [Publisher]

The Eagle and the Dragon Serge Gruzinski 2014-12-23 In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

The Syntax of Chinese C.-T. James Huang 2009-03-19 A guide to Chinese syntax covering a broad variety of topics including categories, argument structure, passives and anaphora. The discussion of each topic sums up the key research results and provides new points of departure for further research.

Chinese Chaofen Sun 2006-09-04 Chinese is spoken by more people than any other language in the world, and has a rich social, cultural and historical background. This book is a comprehensive guide to the linguistic structure of Chinese, providing an accessible introduction to each of the key areas. It describes the fundamentals of its writing system, its pronunciation and tonal sound system, its morphology (how words are structured), and its syntax (how sentences are formed) - as well as its historical development, and the diverse ways in which it interacts with other languages. Setting the discussion of all aspects of Chinese firmly within the context of the language in use, (Chinese: A Linguistic Introduction will be of great benefit to learners wishing to extend their knowledge and competence in the language, and their teachers. It will also be a useful starting point for students of linguistics beginning work on the structure of this major world language.

The Handbook of World Englishes Cecil L. Nelson 2020-01-15 The definitive reference work on World Englishes—fully revised, expanded, and updated The Handbook of World Englishes is a collection of articles on the cross-cultural and transnational linguistic convergence and change of the English language. Now in its second edition, this Handbook brings together multiple theoretical, contextual, and ideological perspectives, and offers new interpretations of the changing identities of world Englishes (WE) speakers and examines the current state of the English language across the world. Thematically integrated contributions from leading scholars and researchers explore the expansion, modification, and adaptation of English in various settings and discuss the role of English in local, regional, and global contexts. This highly regarded text has been fully updated throughout the new edition to reflect the current conditions, contexts, and functions of major varieties of English across the world. Significant revisions to topics—such as an overview of the varieties of modern world Englishes and the First Diaspora in Wales and Ireland—reflect expanded scholarship in the field and new directions of research. Each chapter from the first edition has been updated in content and citations, while 11 new chapters cover subjects including world Englishes testing and Postcolonial theory, as well as world Englishes in South America, Russia, Africa, China, Southeast Asia, the United States, and Canada. Examines both traditional and contemporary perspectives on World Englishes Written by international authors, experts in their respective fields Emphasizes the historical development of the English language through a series of diasporas Highlights research into a wide range of sociolinguistic contexts and processes including code switching, newly established WE varieties, and new data on Chinese and Russian Englishes Explores future directions in WE research, development, and application The Handbook of World Englishes is an essential resource for academics, researchers, practitioners, and advanced students in fields including applied linguistics, language teaching, the history of the English language, world literatures, and related social and language sciences.

The Oxford Handbook of Chinese Linguistics William S.-Y. Wang 2015 The Oxford Handbook of Chinese Linguistics offers a broad and comprehensive coverage of the entire field from a multi-disciplinary perspective. All chapters are contributed by leading scholars in their respective areas. This Handbook contains eight sections: history, languages and dialects, language contact, morphology, syntax, phonetics and phonology, socio-cultural aspects and neuro-psychological aspects. It provides not only a diachronic view of how languages evolve, but also a synchronic view of how languages in contact enrich each other by borrowing new words, calquing loan translation and even developing new syntactic structures. It also accompanies traditional linguistic studies of grammar and phonology with empirical evidence from psychology and neurocognitive sciences. In addition to research on the Chinese language and its major dialect groups, this handbook covers studies on sign languages and non-Chinese languages, such as the Austronesian languages spoken in Taiwan.

The Handbook of Advanced Proficiency in Second Language Acquisition Paul A. Malovrh 2018-06-19 A comprehensive, current review of the research and approaches to advanced proficiency in second language acquisition The Handbook of Advanced Proficiency in Second Language Acquisition offers an overview of the most recent and scientific-based research concerning higher proficiency in second language acquisition (SLA). With contributions from an international team of experts in the field, the Handbook presents several theoretical approaches to SLA and offers an examination of advanced proficiency from the viewpoint of various contexts and dimensions of second language performance. The authors also review linguistic phenomena among advanced learners through the lens of phonology and grammar development. Comprehensive in scope, this book provides an overview of advanced proficiency grounded in socially-relevant domains of second language acquisition including discourse, reading, genre-based writing, and pragmatic competence. The authoritative volume brings together the theoretical accounts of advanced language use combined with solid empirical research. Includes contributions from an international collection of noted scholars in the field of second language acquisition Offers a variety of theoretical approaches to SLA Contains information on the most recent empirical research that contributes to an understanding of SLA Describes performance phenomena according to multiple approaches to SLA Written for scholars, students and linguists, The Handbook of Advanced Proficiency in Second Language Acquisition is a comprehensive text that offers the most recent developments in the study of advanced proficiency in the acquisition of a second language.

The Handbook of Dialectology Charles Boberg 2018-01-30 The Handbook of Dialectology provides an authoritative, up-to-date and unusually broad account of the study of dialect, in one volume. Each chapter reviews essential research, and offers a critical discussion of the past, present and future development of the area. The volume is based on state-of-the-art research in dialectology around the world, providing the most current work available with an unusually broad scope of topics Provides a practical guide to the many methodological and statistical issues surrounding the collection and analysis of dialect data Offers summaries of dialect variation in the world's most widely spoken and commonly studied languages, including several non-European languages that have traditionally received less attention in general discussions of dialectology Reviews the intellectual development of the field, including its main theoretical schools of thought and research traditions, both academic and applied The editors are well known and highly respected, with a deep knowledge of this vast field of inquiry

The Handbook of Chinese Linguistics C. T. James Huang 2018-03-20 The Handbook of Chinese Linguistics is the first comprehensive introduction to Chinese linguistics from the perspective of modern theoretical and formal linguistics. Containing twenty-five chapters, the book offers a balanced, accessible and thoughtfully organized introduction to some of the most important results of research into Chinese linguistics carried out by theoretical linguists during the last thirty years. Presenting critical overviews of a wide range of major topics, it is the first to meet the great demand for an overview volume on core areas of Chinese linguistics. Authoritative contributions describe and assess the major achievements and controversies of research undertaken in each area, and provide bibliographies for further reading. The contributors refer both to their own work in relevant fields, and objectively present a range of competitor theories and analyses, resulting in a volume that is fully comprehensive in its coverage of theoretical research into Chinese linguistics in recent years. This unique Handbook is suitable both as a primary reader for structured, taught courses on Chinese linguistics at university level, and for individual study by graduates and other professional linguists.

Dramatized Discourse Jing-Schmidt Zhuo 2005-01-01 Language is a symbolic system of meanings evoked by linguistic forms. The choice of forms in communication is non-arbitrary. Rather, speakers pick those forms whose meanings best convey their discourse intention. The meaning of the Mandarin ba-construction, argues Jing-Schmidt, is discourse dramaticity, a concept that includes high conceptual salience and subjectivity. The ba-construction and its "syntactic variations" are never interchangeable because contrast in their meanings determines difference in their functions. Quantitative analyses based on authentic data validate the postulation of discourse dramaticity. By taking discourse pragmatics seriously, the dramaticity hypothesis enables a unitary explanation that transcends sentence grammar. The diachronic treatment reveals the syntactic change of the ba-construction as an adaptive process of pragmatization, which raises the issue of linguistic evolution as a result of socio-cultural development. This book will be of particular value to readers interested in the interaction between grammar and pragmatics and to teachers confronting the controversy of the ba-construction in foreign language pedagogy.

The Oxford Handbook of Japanese Linguistics Shigeru Miyagawa 2008-11-03 The core data is laid out, followed by critical discussion of the various approaches found in the literature. Each chapter ends with a section on how the study of the particular phenomenon in Japanese contributes to our knowledge of general linguistic theory.

The Hanmoji Handbook Jason Li 2022-08-30 Learn Chinese with a new twist! This full-color illustrated handbook introduces and explains Han characters and idioms through the language of emoji. Even though their dates of origin are millennia apart, the languages of Chinese and emoji share similarities that the average smartphone user might find surprising. These "hanmoji" parallels offer an exciting new way to learn Chinese—and a fascinating window into the evolution of Chinese Han characters. Packed with fun illustrations and engaging descriptions, The Hanmoji Handbook brings to life the ongoing dialogue between the visual elements of Chinese characters and the language of emoji. At once entertaining and educational, this unique volume holds sure appeal for readers who use emojis, anyone interested in learning Chinese, and those who love quirky, visual gift books.

The Cambridge Handbook of Sociolinguistics Rajend Mesthrie 2011-10-06 The most comprehensive overview available, this Handbook is an essential guide to sociolinguistics today. Reflecting the breadth of research in the field, it surveys a range of topics and approaches in the study of language variation and use in society. As well as linguistic perspectives, the handbook includes insights from anthropology, social psychology, the study of discourse and power, conversation analysis, theories of style and styling, language contact and applied sociolinguistics. Language practices seem to have reached new levels since the communications revolution of the late twentieth century. At the same time face-to-face communication is still the main force of language identity, even if social and peer networks of the traditional face-to-face nature are facing stiff competition of the Facebook-to-Facebook sort. The most authoritative guide to the state of the field, this handbook shows that sociolinguistics provides us with the best tools for understanding our unfolding evolution as social beings.

The Handbook of Language Contact Raymond Hickey 2020-09-01 The second edition of the definitive reference on contact studies and linguistic change—provides extensive new research and original case studies Language contact is a dynamic area of contemporary linguistic research that studies how language changes when speakers of different languages interact. Accessibly structured into three sections, The Handbook of Language Contact explores the role of contact studies within the field of linguistics, the value of contact studies for language change research, and the relevance of language contact for sociolinguistics. This authoritative volume presents original findings and fresh research directions from an international team of prominent experts. Thirty-seven specially-commissioned chapters cover a broad range of topics and case studies of contact from around the world. Now in its second edition, this valuable reference has been extensively updated with new chapters on topics including globalization, language acquisition, creolization, code-switching, and genetic classification. Fresh case studies examine Romance, Indo-

European, African, Mayan, and many other languages in both the past and the present. Addressing the major issues in the field of language contact studies, this volume: Includes a representative sample of individual studies which re-evaluate the role of language contact in the broader context of language and society Offers 23 new chapters written by leading scholars Examines language contact in different societies, including many in Africa and Asia Provides a cross-section of case studies drawing on languages across the world The Handbook of Language Contact, Second Edition is an indispensable resource for researchers, scholars, and students involved in language contact, language variation and change, sociolinguistics, bilingualism, and language theory.

The Oxford Handbook of Philosophy of Language Ernest Lepore 2008-09-25 The definitive reference work for this diverse and fertile field: an outstanding international team contribute 41 new essays covering topics from the nature of language to meaning, truth, and reference, and the interfaces of philosophy of language with linguistics, psychology, logic, epistemology, and metaphysics.

The Oxford Handbook of Modern Chinese Literatures Associate Professor of Chinese Cultural Studies Carlos Rojas 2016-08-25 With over forty original essays, The Oxford Handbook of Modern Chinese Literatures offers an in-depth engagement with the current analytical methodologies and critical practices that are shaping the field in the twenty-first century. Divided into three sections--Structure, Taxonomy, and Methodology--the volume carefully moves across approaches, genres, and forms to address a rich range of topics that include popular culture in Late Qing China, Zhang Guanguy's Journey to the West in Cartoons, writings of Southeast Asian migrants in Taiwan, the Chinese Anglophone Novel, and depictions of HIV/AIDS in Chu T'ien-wen's Notes of a Desolate Man.

The Handbook of Language, Gender, and Sexuality Susan Ehrlich 2017-10-02 Significantly expanded and updated, the second edition of The Handbook of Language, Gender and Sexuality brings together a team of the leading specialists in the field to create a comprehensive overview of key historical themes and issues, along with methodologies and cutting-edge research topics. Examines the dynamic ways that women and men develop and manage gendered identities through their talk, presenting data and case studies from interactions in a range of social contexts and different communities Substantially updated for the second edition, including a new introduction, 24 newly-commissioned chapters, ten updated chapters, and a comprehensive index Includes new chapters on research in non-English speaking countries – from Asia to South America – and cutting-edge topics such as language, gender, and popular culture; language and sexual identities; and language, gender, and socio-phonetics New sections focus on key themes and issues in the field, such as methodological approaches to language and gender, incorporating new chapters on conversation analysis, critical discourse analysis, corpus linguistics, and variation theory Provides unrivalled geographic coverage and an essential resource for a wide range of disciplines, from linguistics, psychology, sociology, and anthropology to communication and gender studies

War in the Nineteenth Century Jeremy Black 2013-04-26 This book provides an accessible and up-to-date account of the rich military history of the nineteenth century. It takes a fresh approach, making novel links with conflict and coercion, and moving away from teleological emphases. Naval developments and warfare are included, as are social and cultural dimensions of military activity. Leading military historian Jeremy Black offers the reader a twenty-first century approach to this period, particularly through his focus on the dynamic drive provided by different forms of military goals, or "tasking". This allows echoes with modern warfare to come to the fore and provides a fuller understanding of a period sometimes considered solely as background to the total war of 1914-45. Alongside state-to-state warfare and the move toward "total war", Black's emphasis on different military goals gives due weight to trans-oceanic conflict at the expense of non-Europeans. Irregular, internal and asymmetric war are all considered, ranging from local insurgencies to imperial expeditions, and provide a deliberate shift from Western-centricity. At the very cutting edge of its field, this book is a must read for all students and scholars of military history and its related disciplines.

Writing Systems Henry Rogers 2005 Accessibly written, Writing Systems: A Linguistic Approach provides detailed coverage of all major writing systems of historical or structural significance with thorough discussion of structure, history, and social context as well as important theoretical issues. The book examines systems as diverse as Chinese, Greek, and Maya and each writing system is presented in the light of four major aspects of writing: history and development; internal structure; the relationship of writing and language; and sociolinguistic factors. The volume is extensively illustrated and the glossary of technical terms, exercises, and further reading suggestions that accompany each chapter make Writing Systems a valuable resource for students in linguistics and anthropology.

The Oxford Handbook of Linguistic Interfaces Gillian Ramchand 2007-02-22 This state-of-the-art guide to some of the most exciting work in current linguistics explores how the core components of the language faculty interact. It examines how these interactions are reflected in linguistic and cognitive theory, considers what they reveal about the operations of language within the mind, and looks at their reflections in expression and communication. Leading international scholars present cutting-edge accounts of developments in the interfaces between phonetics, phonology, morphology, syntax, semantics, and pragmatics. All scholars and advanced students of language will value this book, whether they are in linguistics, cognitive science, philosophy, artificial intelligence, computational science, or informatics.

The Handbook of Classroom Discourse and Interaction Numa Markee 2015-04-20 Offering an interdisciplinary approach, The Handbook of Classroom Discourse and Interaction presents a series of contributions written by educators and applied linguists that explores the latest research methodologies and theories related to classroom language. • Organized to facilitate a critical understanding of how and why various research traditions differ and how they overlap theoretically and methodologically • Discusses key issues in the future development of research in critical areas of education and applied linguistics • Provides empirically-based analysis of classroom talk to illustrate theoretical claims and methodologies • Includes multimodal transcripts, an emerging trend in education and applied linguistics, particularly in conversation analysis and sociocultural theory

The Oxford Handbook of Linguistic Analysis Bernd Heine 2015 This handbook compares the main analytic frameworks and methods of contemporary linguistics. It offers a unique overview of linguistic theory, revealing the common concerns of competing approaches. By showing their current and potential applications it provides the means by which linguists and others can judge what are the most useful models for the task in hand. Distinguished scholars from all over the world explain the rationale and aims of over thirty explanatory approaches to the description, analysis, and understanding of language. Each chapter considers the main goals of the model; the relation it proposes from between lexicon, syntax, semantics, pragmatics, and phonology; the way it defines the interactions between cognition and grammar; what it counts as evidence; and how it explains linguistic change and structure. The Oxford Handbook of Linguistic Analysis offers an indispensable guide for everyone researching any aspect of language including those in linguistics, comparative philology, cognitive science, developmental philology, cognitive science, developmental psychology, computational science, and artificial intelligence. This second edition has been updated to include seven new chapters looking at linguistic units in language acquisition, conversation analysis, neurolinguistics, experimental phonetics, phonological analysis, experimental semantics, and distributional typology.

The Handbook of Bilingualism and Multilingualism Tej K. Bhatia 2014-09-15 \*\*Honored as a 2013 Choice Outstanding Academic Title\*\* Comprising state-of-the-art research, this substantially expanded and revised Handbook discusses the latest global and interdisciplinary issues across bilingualism and multilingualism. Includes the addition of ten new authors to the contributor team, and coverage of seven new topics ranging from global media to heritage language learning Provides extensively revised coverage of bilingual and multilingual communities, polyglot aphasia, creolization, indigenization, linguistic ecology and endangered languages, multilingualism, and forensic linguistics Brings together a global team of internationally-renowned researchers from different disciplines Covers a wide variety of topics, ranging from neuro- and psycho-linguistic research to studies of media and psychological counseling Assesses the latest issues in worldwide linguistics, including the phenomena and the conceptualization of 'hyperglobalization', and emphasizes geographical centers of global conflict and commerce

The Routledge Encyclopedia of the Chinese Language Sin-Wai Chan 2016-04-14 The Routledge Encyclopedia of the Chinese Language is an invaluable resource for language learners and linguists of Chinese worldwide, those interested readers of Chinese literature and cultures, and scholars in Chinese studies. Featuring the research on the changing landscape of the Chinese language by a number of eminent academics in the field, this volume will meet the academic, linguistic and pedagogical needs of anyone interested in the Chinese language: from Sinologists to Chinese linguists, as well as teachers and learners of Chinese as a second language. The encyclopedia explores a range of topics: from research on oracle bone and bronze inscriptions, to Chinese language acquisition, to the language of the mass media. This reference offers a guide to shifts over time in thinking about the Chinese language as well as providing an overview of contemporary themes, debates and research interests. The editors and contributors are assisted by an editorial board comprised of the best and most experienced sinologists world-wide. The reference includes an introduction, written by the editor, which places the assembled texts in their historical and intellectual context. The Encyclopedia of the Chinese Language is destined to be valued by scholars and students as a vital research resource.

The Handbook of Bilingual and Multilingual Education Wayne E. Wright 2017-09-25 The Handbook of Bilingual and Multilingual Education presents the first comprehensive international reference work of the latest policies, practices, and theories related to the dynamic interdisciplinary field of bilingual and multilingual education. Represents the first comprehensive reference work that covers bilingual, multilingual, and multicultural educational policies and practices around the world Features contributions from 78 established and emerging international scholars Offers extensive coverage in sixteen chapters of language and education issues in specific and diverse regional/geographic contexts, including South Africa, Mexico, Latvia, Cambodia, Japan, and Texas Covers pedagogical issues such as language assessment as well as offering evolving perspectives on the needs of specific learner populations, such as ELLs, learners with language impairments, and bilingual education outside of the classroom

The Oxford Handbook of Chinese Cinemas Carlos Rojas 2013-04-25 What does it mean for a cinematic work to be "Chinese"? Does it refer specifically to a work's subject, or does it also reflect considerations of language, ethnicity, nationality, ideology, or political orientation? Such questions make any single approach to a vast field like "Chinese cinema" difficult at best. Accordingly, The Oxford Handbook of Chinese Cinemas situates the term more broadly among various different phases, genres, and distinct national configurations, while taking care to address the consequences of grouping together so many disparate histories under a single banner. Offering both a platform for cross-disciplinary dialogue and a mapping of Chinese cinema as an expanded field, this Handbook presents thirty-three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies. Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity — all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong, Taiwan, and the global diaspora. Chapters in Part II feature studies centered on the field's taxonomical formalities, including such topics as the role of the Chinese opera in technological innovation, the political logic of the "Maoist film," and the psychoanalytic formula of the kung fu action film. Finally, in Part III, focus is given to the structural elements that comprise a work's production, distribution, and reception to reveal the broader cinematic apparatuses within which these works are positioned. Taken together, the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship. Expertly edited to illustrate a representative set of up to date topics and approaches, The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages.

The Handbook of Psycholinguistics Eva M. Fernández 2020-10-27 Incorporating approaches from linguistics and psychology, The Handbook of Psycholinguistics explores language processing and language acquisition from an array of perspectives and features cutting edge research from cognitive science, neuroscience, and other related fields. The Handbook provides readers with a comprehensive review of the current state of the field, with an emphasis on research trends most likely to determine the shape of psycholinguistics in the years ahead. The chapters are organized into three parts, corresponding to the major areas of psycholinguistics: production, comprehension, and acquisition. The collection of chapters, written by a team of international scholars, incorporates multilingual populations and neurolinguistic dimensions. Each of the three sections also features an overview chapter in which readers are introduced to the different theoretical perspectives guiding research in the area covered in that section. Timely, comprehensive, and authoritative, The Handbook of Psycholinguistics is a valuable addition to the reference shelves of researchers in psychology, linguistics, and cognitive science, as well as advanced undergraduates and graduate students interested in how language works in the human mind and how language is acquired.

Discover China Anqi Ding 2011 Specially designed for low-intermediate level teenage-adult level learners, Discover China Student Book 3 + Audio CD 3 is part of a four-level Mandarin Chinese course which utilizes a communicative and truly integrated approach to Chinese language learning. Emphasis is placed on communication in real contexts.

The Handbook of Korean Linguistics Lucien Brown 2019-02-06 The Handbook of Korean Linguistics presents state-of-the-art overviews of the linguistic research on the Korean language. • Structured to allow a range of theoretical perspectives in addressing linguistic phenomena • Includes chapters on Old Korean and Middle Korean, present-day language policies in North and South Korea, social aspects of Korean as a heritage language, and honorifics • Indispensable and unique resource not only for those studying Korean linguistics but cross-linguistic research in general

A Companion to Modern Chinese Literature Yingjin Zhang 2015-08-13 This wide-ranging Companion provides a vital overview of modern Chinese literature in different geopolitical areas, from the 1840s to now. It reviews major accomplishments of Chinese literary scholarship published in Chinese and English and brings attention to previously neglected, important areas. Offers the most thorough and concise coverage of modern Chinese literature to date, drawing attention to previously neglected areas such as late Qing, Sinophone, and ethnic minority literature Several chapters explore literature in relation to Sinophone geopolitics, regional culture, urban culture, visual culture, print media, and new media The introduction and two chapters furnish overviews of the institutional development of modern Chinese literature in Chinese and English scholarship since the mid-twentieth century Contributions from leading literary scholars in mainland China and Hong Kong add their voices to international scholarship Papers in Chinese Linguistics and Epigraphy Fagao Zhou 1986

The Palgrave Handbook of Chinese Language Studies Zhengdao Ye 2022-07-30 This new major reference work provides a comprehensive overview of linguistic phenomena in a variety of Sinitic languages in a global context, highlighting the dynamic interaction between these languages and English. This "living reference work" offers a window into the linguistic sphere in China and beyond, and showcases the latest research into diverse and evolving linguistic phenomena that have resulted from intensified interactions between the Sinophone world and other lingua-spheres. The Handbook is divided into five sections. The chapters in Section I (New Research Trends in Chinese Linguistic Research) present fast-growing research areas in Chinese linguistics, particularly those undertaken by scholars based in China. Section II (Interactions of Sinitic Languages) focuses on language-contact situations inside and outside China. The chapters in Section III (Meaning, Culture, Translation) explore the meanings of key cultural concepts, and how ideas move between Chinese and English through translation across various genres. Section IV (New Trends in Teaching Chinese as a Foreign Language) covers new ideas and practices relating to teaching the Chinese language and culture. The final section, Section V (Transference from Chinese to English), explores dynamic interactions between varieties of Chinese and varieties of English, as they play out in multilingual sites and settings
