Orion Lost Alastair Chisholm 2020-01-09 After a catastrophic Unknown Event leaves the colony ship Orion stranded deep in space, it's up to thirteen-year-old Beth and her friends to navigate through treacherous and uncharted territory and reach safety. But a heavily damaged ship, a mysterious alien species, space pirates, and an Artificial Intelligence which Beth suspects may be lying to her mean that getting home has never been so difficult. Hugely gripping, with incredible twists and a fast-paced, action-packed story, this is an unputdownable science fiction adventure - perfect for fans of *Mortal Engines* and *Star Wars*.

Killing the Rising Sun Bill O'Reilly 2016-09-22 Autumn 1944. World War II is nearly over in Europe but is escalating in the Pacific, where American soldiers face an opponent who will go to any length to avoid defeat. The Japanese army follows the samurai code of Bushido, stipulating that surrender is a form of dishonor. *Killing the Rising Sun* by Bill O'Reilly and Martin Dugard takes readers to the bloody tropical-island battlefields of Peleliu and Iwo Jima and to the embattled Philippines, where General Douglas MacArthur has made a triumphant return and is plotting a full-scale invasion of Japan. Across the globe in Los Alamos, New Mexico, Dr. J. Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind. In Washington, DC, FDR dies in office and Harry Truman ascends to the presidency, only to face the most important political decision in history: whether to use that weapon. And in Tokyo, Emperor Hirohito, who is considered a deity by his subjects, refuses to surrender, despite a massive and mounting death toll. Told in the same page-turning style of *Killing Lincoln*, *Killing Kennedy*, *Killing Jesus*, *Killing Patton*, and *Killing Reagan*, this epic saga details the final moments of World War II like never before.

World Without Fish Mark Kurlansky 2016-02-23 "Can you imagine a world without fish? It's not as crazy as it sounds. But if we keep doing things the way we've been doing things, fish could become extinct within fifty years. So let's change the way we do things!" Announcing the paperback edition of *World Without Fish*, the uniquely illustrated narrative nonfiction account—for kids—of what is happening to the world's oceans and what they can do about it. Written by Mark Kurlansky, the bestselling author of *Cod*, *Salt*, *The Big Oyster*, and many other books, *World Without Fish* has been praised as "urgent" (*Publishers Weekly*) and "a wonderfully fast-paced and engaging primer on the key questions surrounding fish and the sea" (*Paul Greenberg*, author of *Four Fish*). It has also been included in the New York State Expeditionary Learning English Language Arts Curriculum. Written by a master storyteller, *World Without Fish* connects all the dots—biology, economics, evolution, politics, climate, history, culture, food, and nutrition—in a way that kids can really understand. It describes how the fish we most commonly eat, including tuna, salmon, cod, swordfish—even anchovies—could disappear within fifty years, and the domino effect it would have: the oceans teeming with jellyfish and turning pinkish orange from algal blooms, the seabirds disappearing, then reptiles, then mammals. It describes the back-and-forth dynamic of fishermen, who are the original environmentalists, and scientists, who not that long ago considered fish an endless resource. It explains why fish farming is not the answer—and why sustainable fishing is, and how to help return the oceans to their natural ecological balance. Interwoven with the book is a twelve-page full-color graphic novel. Each beautifully illustrated chapter opener links to the next to form a larger fictional story that perfectly complements the

text.

Clayton Stone, *At Your Service* Ena Jones 2015-07-17 Twelve-year-old Clayton Stone is shocked when a top-secret government organization recruits him as a decoy in a kidnapping sting. The Future King James Riley 2020-03-03 Fort's continued adventures take more surprising twists and turns in this third novel in a thrilling series from the author of the New York Times bestselling *Story Thieves!* Dealing with monster attacks and his missing father has been hard enough for Fort Fitzgerald in his first month at the Oppenheimer School. But there's another school for magic, this one in the United Kingdom, that's about to create even bigger problems. Six of the Carmarthen Academy students found themselves lost in time when they first started learning magic. Now they've returned, with news of a coming war that the students claim only they can stop. But their new plan for the world might lead to an even worse future, one that Fort and his friends are destined to help bring about, no matter how much they might want to fight it. Can Fort change the future that the Time students have already seen play out? Or is he destined to pay for his past mistakes for all of time?

Freaking Lana Krumwiede 2012-10-09 A thrilling, fast-paced dystopian novel about the dangers of unchecked power and the dilemmas facing a boy torn between two ways of life. In twelve-year-old Taemon's city, everyone has a power called psi — the ability to move and manipulate objects with their minds. When Taemon loses his psi in a traumatic accident, he must hide his lack of power by any means possible. But a humiliating incident at a sports tournament exposes his disability, and Taemon is exiled to the powerless colony. The "dud farm" is not what Taemon expected, though: people are kind and open, and they actually seem to enjoy using their hands to work and play and even comfort their children. Taemon adjusts to his new life quickly, making friends and finding unconditional acceptance. But gradually he discovers that for all its openness, there are mysteries at the colony, too — dangerous secrets that would give unchecked power to psi wielders if discovered. When Taemon unwittingly leaks one of these secrets, will he have the courage to repair the damage — even if it means returning to the city and facing the very people who exiled him?

Time Jumpers Brandon Mull 2019-05-07 Trapped in a world where magic is powerful and dreams are real, Cole's epic adventure comes to a close in book five of the New York Times bestselling "fanciful, action-packed adventure" series (Publishers Weekly, starred review), from the author of the *Fablehaven* and *Beyonders* series. Cole Randolph can barely remember what life was like back home in Arizona. It's hard to imagine there was a time he didn't wake up to daily threats and danger. But Cole is still determined to find a way home with his friends and to set things right in the Five Kingdoms before he leaves. That means traveling to the last of the kingdoms—Creon. It's a place where time itself can be manipulated, where reality can bend and change. On one last death-defying mission, Cole must use everything he has learned to face a villain with powers beyond anything he has seen before. The past, present, and future are all at stake in this epic conclusion to the bestselling *Five Kingdoms* series.

The Eleventh Plague John S. Marr 1999-12-09 Two children die of a disease thought to be nonexistence in the United States. Within hours, thoroughbreds at the legendary Churchill Downs are dying of a virus that cannot be identified, even by the most expert veterinarians. Called in to solve these lethal mysteries, noted virologist Jack Bryne discovers the two bear uncanny similarities to the Fifth and Sixth Plagues described in the *Book of Exodus*. And the horror is just beginning... Every month another monstrosity claims its victims. Every month brings the reenactment of another more catastrophic plague. Soon Bryne's own worldwide medical computer network, ProMED, is invaded by the power behind the horrors--a diabolically intelligent serial killer with a sophisticated knowledge of toxins and an obsession with a biblical retribution. To make matters worse, the FBI is convinced Bryne himself is the killer. Caught between both sides, the brilliant virus hunter joins forces with his bright lab assistant, an ambitious TV newswoman, and a young religious scholar to find this madman and stop him before it's too late. But even Bryne does not know how close the killer is...until he meets this modern medical Moriarty on a midnight confrontation that will determine the future of the world.

The Jamie Drake Equation Christopher Edge 2018-06-26 From the author of *The Many Worlds of Albie Bright* comes another cutting-edge cosmic space adventure for anyone who's ever looked up at the stars and wondered about the universe. An exploration of the constellations, an appreciation of the courage of astronauts, and a loving father-son story. Perfect for fans of Scott Kelly's *Astrotwins* series. How amazing would it be to have a dad who's an astronaut? To see him go on rocket launches, live in zero gravity, and fly through space like a superhero? Jamie Drake knows. His dad is orbiting Earth in the International Space Station. Jamie thinks it's cool, and he's proud of his dad, but he also really misses him. Hanging out at the local observatory one day, Jamie is surprised when he picks up a strange signal on his phone. Could it be aliens? Are they closer to our planet than anyone realizes? With his dad in space, Jamie feels he has no choice but to investigate on his own. But when something goes wrong with his dad's mission, Jamie is reminded that space is a dangerous place. He decides it's time to prove that he's a hero too.

The Whisper Emma Clayton 2012-02-01 Listen -- can you hear it? The explosive sequel to *THE ROAR!* From a whisper...to a scream! Telepathic twins Mika and Ellie at last are reunited. But if they're ever to free the brainwashed, microchipped child soldiers, they must pretend to play along with the tyrant Mal Gorman's maniacal plan, even as they mind-read his every evil thought. Members of an elite squadron of mutants, the brother and sister have specialized skills

that will enable them to steal the top-secret formula for an age-reversing drug developed by rebel scientists on the wild side of The Wall. Juiced by these potent pills, the cadaver-like Gorman foresees a future in which he'll be forever young - released from the machinery that now supports him. Unless, that is, Ellie and Mika have a master plan of their own: to bring the all-powerful Gorman to his knees, and face-to-face with his greatest fear.

A Whisper of Horses Zillah Bethell 2016-08-11 A gorgeously lyrical journey of discovery across a reimagined Great Britain. Serendipity loves horses. No-one in Lahn Dan has ever seen one, apparently they died out before the Gases - but there are statues of them around the city, paintings and drawings too if you know where to look. And there's the little lost wooden horse Mama gave Serendipity when she was little. When Mama dies, Seren is taken under the wing of Professor Nimbus, a storyteller. Nimbus is kind and knowledgeable, but Seren has started to question the Minister's rule and life beyond the high, impenetrable Emm Twenty-Five wall. Hidden among Mama's few possessions was a map which suggests there is life outside of Lahn Dahn, and a place where horses live and roam freely - out beyond the wall and the Minister's grip. So, with the help of a trader boy called Tab and his little dog Mouse, Serendipity heads into the unknown, searching for the beautiful creatures she's always dreamed of. But the Minister is behind them, determined to hunt her down. . .

The Sky Inside Clare B. Dunkle 2010-12-21 Martin lives in a perfect world. Every year a new generation of genetically-engineered children is shipped out to meet their parents. Every spring the residents of his town take down the snow they've stuck to their windows and put up flowers. Every morning his family gathers around their television and votes, like everyone else, for whatever matter of national importance the president has on the table. Today, it is the color of his drapes. It's business as usual under the protective dome of suburb HM1. And it's all about to come crashing down. Because a stranger has come to take away all the little children, including Martin's sister, Cassie, and no one wants to talk about where she has gone. The way Martin sees it, he has a choice. He can remain in the dubious safety of HM1, with danger that no one wants to talk about lurking just beneath the surface, or he can actually break out of the suburb, into the mysterious land outside, rumored to be nothing but blowing sand for miles upon miles. Acclaimed author Clare B. Dunkle has crafted a fresh and fast-paced science-fiction thriller, one that challenges her characters -- and her readers -- to look closer at the world they take for granted.

Living Literature Wendy C. Kasten 2005 This is the ideal book to help prospective teachers improve children's reading and language arts skills and instill in them a genuine and lasting love of reading. The book demonstrates numerous ways to integrate literature into the daily fabric of classroom life. Following a solid grounding in the basics every reading teacher needs, individual chapters explore genres of children's literature and teaching strategies specific to each genre. Then, the authors examine currently accepted effective practices for engaging young readers in hands-on reading in a way that fosters a love of literature that will last a lifetime. Early childhood and elementary education literature and language arts teachers.
